PCAS is an entirely volunteer based organization. The funding for our organization comes through generous donations from the public and local businesses, annual fundraisers, minimal adoption fees, and memorial contributions.

At the Piatt County Animal Shelter, pets are our first priority. We want our animals to be comfortable and well cared for while they await placement into their forever homes. For more information about PCAS or to see some of the available pets up for adoption, please visit our website or Facebook page!
